Two West Wight Potters

To the left is the club's West Wight Potter 19.

This last Wednesday she was so anxious to get underway again that she slipped her mooring and was against the breakwall when we got the call she was in trouble. Jon O got the call, John L and Barry rowed out toward her and before they could get there the crew of one of our visiting cruise ships had already towed her to the "Windsong." Minimal damage for being on the rocks.

More about her trailer later!!

To the right is Roy and Allie's West Wight Potter 15. In this photo she was racing her first race in the islands a few years ago. Since then until a few months ago she has been the boat most seen out on the bay.

Roy and Allie have reluctantly put her on the market and you'll find her in the classified ads of this newsletter. She is finely found and ready to go to sea. Roy and Allie have kept her in their garage when not on the water and she is like new.

Thank you Roy and Allie for showing her off on the Bay these last few years. We'll miss seeing you out there.

West Wights are great sailing vessels and have made ocean crossings with fewer problems than many larger boats. Go to their websites and read the many stories related to these wonderfully small sailboats.

Big Island Sailing Foundation

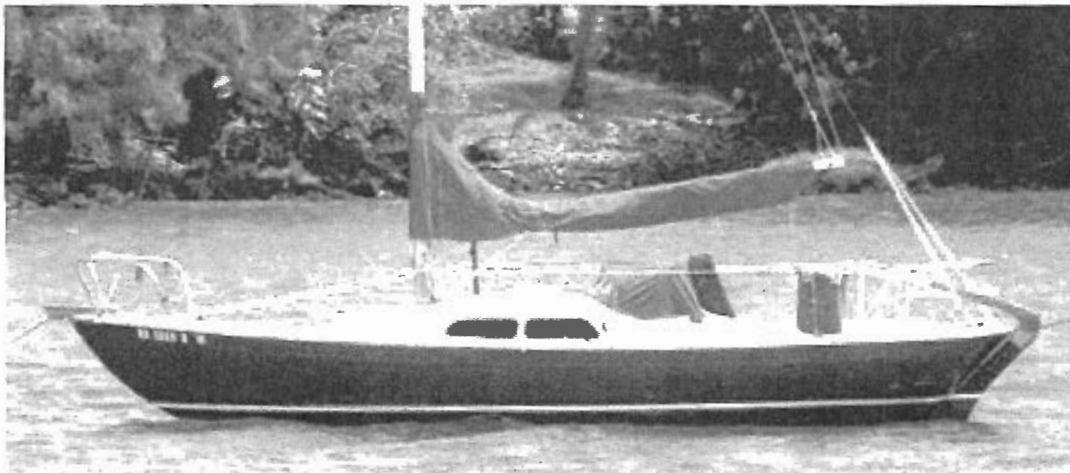

To the right is one happy Big Island Sailing Foundation sailing student.

Below is a photo of our almost newly acquired International Folkboat, "Cheers." Many clubmembers have pledged their dollars for the acquisition.

It is now time to send your pledged dollars to our Treasurer. Make your check payable to Big Island Sailing Foundation and mail it to Na Hoa Holomoku, P. O. Box 1661, Keaau, HI 96749. Your donation is tax deductible. Even if you did not pledge in the past you still can donate and take the tax deduction. Please send your check this very minute. Do it now. We're counting on you.

Thank you!!!

The very seaworthy "Cheers" at her mooring in Reeds Bay.

I just heard from previous owners John and Miko Messina. They are doing well near Oriental in North Carolina and have a shallow draft dock for us to tie up to.
